## Our Vision & Core Values

EDEN recognizes that housing is a basic right of all people, and the first step in helping those vulnerable and disadvantaged transform their lives. We envision that homelessness will be brief and rare ... that every family will have a safe, secure place to call home. We believe housing serves as a foundation to build stable lives, advance independence, and fulfill aspirations.

EDEN is committed to being an active champion of **Diversity, Equity and Inclusion (DEI)** throughout our organization and the communities we serve.

## Profile of Those We Serve

EDEN provides the one thing that most people take for granted: a stable, permanent home. One of the most pressing obstacles faced by our participants is their pronounced poverty, as they typically have very low (or no) incomes. The majority of EDEN participants live with severe mental illness, substance use disorders, HIV/AIDS, physical impairments, or a combination of disabilities. EDEN also serves veterans, domestic abuse survivors, and individuals who are transitioning from correctional and rehabilitative institutions. By providing safe and affordable homes, EDEN helps the most vulnerable households in our community transform their lives.

**EDEN proudly serves more than 4,000 low-income individuals and families annually. Our success is due in large part to our close partnerships with dozens of social service agencies throughout northeast Ohio.**

**EDEN is a contract agency of the Alcohol, Drug and Mental Health Services Board of Cuyahoga County (ADAMHS).**

***EDEN's mission is to provide housing solutions to people facing the challenges of housing insecurities and homelessness.***
